

FAQs About Waxing

Q. Does Bikini Waxing hurt?

A. It can, depending on your pain tolerance. We do sell a numbing cream called "No Scream Cream" which retails for \$16 and is applied 30 minutes before waxing.

Q. How long does my hair need to be to wax?

A. It should be about 1/8 of an inch.

Q. Can I shave between waxing appointments?

A. You CAN, though it is not recommended.

It will stimulate hair growth and will make for more discomfort every time you come in.

Q. How often should I get waxed?

A. Most of our clients wax every 4 weeks.

Q. Can I be waxed while on my period?

A. Preferably not due to heightened sensitivity. However, if it is needed, a tampon must be worn.

Q. What is a Brazilian?

A. Waxing the entire pubic area, including the bottom.

Q. Does it have to be bald?

A. No. A lot of women prefer a landing strip.

Q. Do you wax the hair that grows in the crack of my bottom?

A. Yes. It is included and encouraged.

Q. Is it necessary to get on all-fours or "the doggy position" during a Brazilian wax?

A. NO WAY! The only change in position will be to ask you to lay on your side while waxing the most private of areas.

Q: What measures can be taken to help prevent ingrown hairs?

A: Exfoliate before waxing and again 2-3 days after so that the hairs can grow freely through the skin.

Q. Do you give men Brazilians?

A. Yes. A professional attitude is ALWAYS maintained. Perverted behavior will NOT be tolerated!

FAQs About Tanning

Q. What is spray tanning?

A. An spray tan is the best way to apply a sunless tan. The instant bronze liquid is simply sprayed by an airbrush technician onto the body.

Q. How long will the tan last?

A. Same as any tan the sunless tan will last 5-10 days depending on your skin type and how well you take care of your tan. Moisturizing daily with the Tan Extender will help prolong your tan.

Q. How long will it take?

A. For a full body tan it takes approximately 15 minutes to apply the tan and 15 minutes for the tan to dry. Wear what you are comfortable in, an old swimsuit or underwear that you don't mind getting spray tan on. Some people prefer to be nude.

Q. What should I do before my tan?

A. Exfoliate, exfoliate, exfoliate! How well you exfoliate and your skin type are the biggest factors in determining how long your tan will last. Do not wear make-up, deodorant, perfume or lotion.

Q. What do I wear home?

A. Wear dark loose fitting clothing and sandals. The bronzer solution washes out of most clothing EXCEPT silk, linen, wool and leather.

Spray tanning DOES NOT contain a sunscreen! Please take precautions while outdoors.

After Tan Care

- **Please wait to exercise at least 8 hours. Excessive perspiration soon after application will inhibit absorption and the life of the tan.**
- **Wait at least 8-12 hours before showering so the tan has a chance to fully develop.**
- **Apply moisturizer or for a longer lasting tan apply Tan Extender.**
- **When washing your hands please be careful not to drip water down your arms or legs which may cause streaking.**
